NEW! OdorMist System

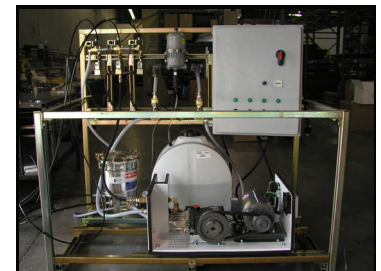

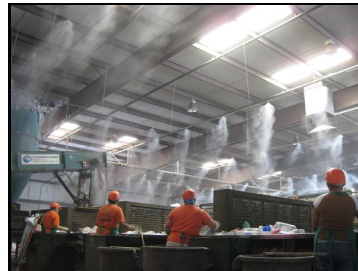

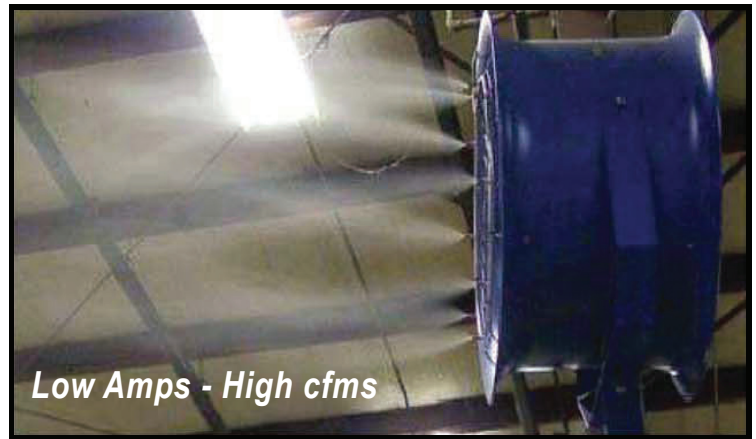

ODOR CONTROL FOR WASTE TRANSFER SYSTEM & RECYCLING CENTERS & "STINKY STUFF"

Less water = Better Coverage

- Smaller water particles - less product required.
- Longer throw means better control over odor.
- No fallout. Complete evaporation.
- The OdorMist System has less initial capital outlay and lower operating costs than our competition.

Key Operational Features

- Adjustable vertical/horizontal angle misting.
- **Accelerated Evaporation: Very high velocity cfm air accelerates the evaporation of 1000 psi atomized water.**
- **Complete Evaporation: all moisture evaporated in 12' to 14' plume above waste pile or odor production area.**
- "Installer Friendly" flexible high pressure hose & Slip-Lok fittings.

Applications:

Barge and Ship Load-Out Facilities • "Stinky Stuff" Hog Farms • Poultry Processing • Waste Lagoons Waste Transfer • Recycling, etc.

The OdorMist System creates a cleaner, healthier and safer environment for your company.
